

03/07/2014

Dear Oklahoma County Health Plan Participants:

Oklahoma County is excited to announce a new preventative benefit through a partnership with HealthCheck Screening (Advanced Body Scan).

- 1.) You are now eligible to receive a FULL BODY SCAN covered 100% by the Oklahoma County Health Plan. The full body scan is a safe, accurate and life-saving preventative screening performed with low-dose EBCT imaging technology. The scan takes less than 15 minutes, you do not have to be sedated, you can wear your normal clothes (no gowns) and there is no fasting or any other preparation necessary. The scan is a highly sensitive and precise screening that will give you a detailed picture of the inner workings of your body in order to find and prevent major illnesses such as cancer and heart disease as soon as possible. The scan is performed starting at your thyroid and extends down to your lower abdomen, and can detect any abnormality down to the size of a grain of rice.
- 2.) Each scan is read and interpreted by a Board Certified Radiologist and your results will be ready in approximately ten (10) days. Once you receive your results, you can make an appointment with the IMWell clinic, or your physician to discuss your results.
- 3.) Participants who are eligible include those age 40+ and under the age of 40 with a doctor's referral.
- 4.) Oklahoma County will pay 100% of the cost. There is no patient out-of-pocket cost associated with the scan.
- 5.) All of your results are kept confidential and will not be shared with your employer.
- 6.) To schedule your appointment, or if you have any questions, please call HealthCheck Screening at 405-486-7444. Simply mention that you are covered under the Oklahoma County Health plan so that the normal charges are waived.
- 7.) HealthCheck Screening is located at: 3209 N.W. Expressway, OKC OK 73112
