Independent Auditors' Report

Board of Trustees
Employees' Retirement System of Oklahoma County
Oklahoma City, Oklahoma

Report of Financial Statements

We have audited the accompanying financial statements of Employees' Retirement System of Oklahoma County (the System), which comprise the statement of plan net position as of June 30, 2015, and the related statement of changes in plan net position for the year then ended, and the related notes to the financial statements.

Managements' Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstance, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the plan net position of Employees' Retirement System of Oklahoma County as of June 30, 2015, and the changes in its plan net position for the year then ended in conformity with accounting principles generally accepted in the United States of America.

Report on Comparative Information

We have previously audited the System's June 30, 2014, financial statements, and we expressed an unmodified audit opinion on those audited financial statements in our report dated October 20, 2014. In our opinion, the comparative information presented herein as of and for the year ended June 30, 2014, is consistent, in all material respects, with the audited financial statements from which it has been derived.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the schedules of changes in net position liability and related ratios, contributions, and actuarial assumptions, as listed in the table of contents, be presented to supplement the financial statements. Such information, although not a part of the financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the financial statements, and other knowledge we obtained during our audit of the financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Management has omitted the Management's Discussion and Analysis that accounting principles generally accepted in the United States of America require to be presented to supplement the financial statements. Such missing information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. Our opinion on the financial statements is not affected by this missing information.

Other Supplementary Information

Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The schedule of investments at June 30, 2015, is presented for purposes of additional analysis and is not a required part of the financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. Such information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

The accompanying notes are an integral part of the financial statements.

EMPLOYEES' RETIREMENT SYSTEM OF OKLAHOMA COUNTY

NOTES TO FINANCIAL STATEMENTS

The Employees' Retirement System of Oklahoma County administers a defined benefit plan and a defined contribution plan for employees of Oklahoma County. In 1991 all employees were given an option to convert from the defined benefit plan to the defined contribution plan. All employees hired after the conversion date of the defined contribution plan are covered under the defined contribution plan.

Note 1 - Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting. Employer contributions to the plan are recognized when due. Benefits and refunds are recognized when due and payable in accordance with the terms of the plan.

Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires the plan trustees to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. If available, quoted market prices are used to value investments. The amounts shown in Note 3 for securities that have no quoted market price represent estimated fair value.

Purchases and sales of securities are recorded on a settlement date basis. Interest income is recorded on the accrual basis.

Comparative Totals

The financial statements include certain prior year summarized comparative information in total but not at the level of detail required for a presentation in conformity with accounting principles generally accepted in the United States of America. Accordingly, such information should be read in conjunction with the System's financial statements for the year ended June 30, 2014, from which the summarized information was derived.

Authority

The Board of County Commissioners of Oklahoma County was authorized to establish, control and manage the Plan under Oklahoma statutes, and as such established the Board of Trustees for the Employees Retirement System of Oklahoma County to administer the Plan. The Board of Trustees has the authority to amend benefit terms as well as contributions. It also approves any cost-of-living adjustments to the Plan.

EMPLOYEES' RETIREMENT SYSTEM OF OKLAHOMA COUNTY

NOTES TO FINANCIAL STATEMENTS

Note 2 - Plan Description and Contribution Information (continued)

Plan Description

The Plan is a single-employer defined benefit pension plan that covers employees of Oklahoma County, including all departments and agencies, that were employed by the County prior to the conversion date of the defined contribution plan in 1991, and who elected not to convert to the defined contribution plan. The Plan provides retirement, disability, and death benefits to plan members and their beneficiaries.

Benefits

Retirement benefits are calculated by adding 2 2/3% of average compensation times years of service, not to exceed 15 years, plus 2% of average compensation times years of service in excess of 15 years, but not over 15 years, plus 1% of average compensation times years of service in excess of 30 years, but not over five years. Surviving spouses are eligible for 66 2/3 % of retirees benefits after their death. If an employee terminates employment with fewer than 8 years of service, he is entitled to receive only his actual contributions.

Contributions

As specified by the Plan, County officers contribute 6% of the annual compensation of their employees and the County contributes 6% of participating employee's salary to the Plan. During the year ended June 30, 2015 contributions were diverted from the defined contribution plan to the defined benefit plan in the amount of \$800,000 and additional contributions in the amount of \$200,000 were received from the Oklahoma County General Fund.

Administrative Costs

Administrative costs paid from the retirement fund include compensation of actuarial consultants, audit fees and bank fees that relate to benefits paid.

Net Pension Liability

The net pension liability was measured as of June 30, 2015 and the total pension liability used to calculate the net pension liability at June 30, 2015, was determined by an actuarial valuation as of those dates.

EMPLOYEES' RETIREMENT SYSTEM OF OKLAHOMA COUNTY

NOTES TO FINANCIAL STATEMENTS

Note 3 - Cash and Investments

The Plan's investment policies are governed by Oklahoma State Statutes.

Custodial Credit Risk - At June 30, 2015, the Plan held deposits of approximately \$5,136,103 in financial institutions, which was comprised of money market account \$3,200,000, insure cash sweep savings account \$1,000,000, repurchase agreement \$460,103, public funds investor account \$1,000 and certificate of deposits \$475,000. Funds are completely insured or collateralized by Federal Depository Insurance (FDIC) and pledged collateral by the depository bank.

The Plan held investments in the Judgments of Oklahoma County in the amount of \$1,931,975. Judgments are paid by Oklahoma County through collection of taxes.

Investment Interest Rate Risk - Interest rate risk is the risk that changes in interest rates will adversely affect the fair market value of an investment. The Plan does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

For the year ended June 30, 2015, the annual money-weighted rate of return on pension plan investments, net of pension plan investment expense, was 1.18 %. The money-weighted rate of return expresses investment performance, net of investment expense, as adjusted for the changing amounts actually invested.

Concentration of Investment Credit Risk - The Plan places no limit on the amount it may invest in any one issuer. The types of investments are governed by Oklahoma State Statutes.

The following table represents the fair value of investments. Investments, other than U.S. Government Securities, that represent 5% or more of the Plan's net assets are separately identified at June 30, 2015.

Investments at fair value as determined by quoted market price - Certificates of Deposit	\$ 475,000
Investments at estimated fair value - Judgments	<u>1,931,975</u>
Total investments	<u>\$ 2,406,975</u>

Note 4 - Fair Value Measurements

The Plan's investments are reported at fair value in the accompanying statement of plan net position. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the date.

**EMPLOYEES' RETIREMENT SYSTEM OF OKLAHOMA COUNTY
NOTES TO FINANCIAL STATEMENTS**

Note 5 - Net Pension Liability and Actuarial Assumptions

The components of the Net Pension Liability consisted of the following at June 30, 2015:

Net Pension Liability

Total Pension Liability	\$ 19,513,592
Plan net position	(7,118,002)
Net Pension Liability	\$ 12,395,590
Plan net position as a % of the total pension liability	36.48%

Plan Membership

Inactive plan members or beneficiaries currently receiving benefits	140
Inactive plan members entitled to but not yet receiving benefits	15
Active plan members	4
	159

Rate of Return

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class included in the pension plan's target asset allocation as of June 30, 2015 are summarized in the following table:

Asset Class	Target Allocation	Blended Long-term expected real rate of return
Cash, Certificates of Deposits, Judgments	100.00%	1.00%

**EMPLOYEES' RETIREMENT SYSTEM OF OKLAHOMA COUNTY
NOTES TO FINANCIAL STATEMENTS**

Note 5 - Net Pension Liability and Actuarial Assumptions (continued)

Rate of Return - (continued)

Long-term expected rate of return of 5.75% was used to value obligations for funding purposes.

Discount Rate and Net Pension Liability Sensitivity

Discount Rate

The discount rate used to measure the total pension liability was 4.62%. The projection of cash flows used to determine the discount rate assumed that plan member contributions will be made at the current contribution rate and that contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on those assumptions, the pension plan's fiduciary net position was projected to be depleted for current members during the 2026 fiscal year. Therefore, the long-term expected rate of return 5.75% was used to discount funded projected benefit payments and the municipal bond rate 4.29% was used to discount unfunded projected benefit payments to determine the total pension liability. The source of the municipal bond rate of 4.29% was Moody's AA Long-Term Corporate Bond Yields spot rate for the last business day of June 2015.

The single effective discount rate was 4.62%.

Note the discount rate changed from 5.75% as of June 30, 2014 to 4.62% as of the June 30, 2015 measurement date.

Sensitivity of the net pension liability to changes in the discount rate

The following presents the pension liability, calculated using the discount rate of 4.62%, as well as what the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (3.62% or 1-percentage-point higher (5.62%) that the current rate:

	1% Decrease - 3.62%	Current - 4.62%	1% Increase - 5.62%
Net pension liability	\$14,087,403	\$12,395,590	\$10,838,754

EMPLOYEES' RETIREMENT SYSTEM OF OKLAHOMA COUNTY
NOTES TO FINANCIAL STATEMENTS

Note 5 - Net Pension Liability and Actuarial Assumptions (continued)

Total pension liability as of June 30, 2015, was determined using the following actuarial assumptions:

Actuarial Cost Method	Entry Age Method	
Asset method	Market value of assets	
Interest Rates	Discount Rate	4.62%
	Expected Long Term Rate of Return	5.75%
	Municipal Bond Rate	4.29%
Inflation	2.75%	
Annual Pay Increases	5.00%	
Measurement Date	June 30, 2015, based on a valuation date of June 30, 2015	
Mortality Rates	RP 2000 Combined Mortality Table, projected 20 years using Projection Scale AA, with separate tables for males and females.	
Retirement Dates	The earlier of age 62 or age 55 with 30 years of service	
Ad hoc cost-of living increase	Not applicable	
Experience study	None known
